

# Kilmacud Crokes CLG; A Sustainable Energy Community & Green Club

- ENERGY • WATER • WASTE
- BIODIVERSITY • TRANSPORT

Introducing the first of a series of 2026 Workshops in the areas of Energy & Sustainability

## ENERGY

**Date :** Monday 23rd February 2026

**Time :** 8 to 9 p.m. followed by Q&A with Gavin Harte\* and SEC / Green Club reps

**Location :** Kilmacs Bar, Clubhouse

Kilmacud Crokes' Sustainable Energy Community (SEC) in collaboration with our Green Club is planning to embark on a significant energy upgrade of Club facilities.

We are also aware that managing energy costs while trying to keep a home warm and comfortable is a daily challenge for many of our members and community.

The range of retrofit options and grant schemes available can feel overwhelming when you are trying to work out the best steps to take in your own situation.

To help cut through the confusion, Kilmacud Crokes SEC in collaboration with our Green Club is hosting an in-person Energy Clinic to help you find out more.

**Presentation :** \*Gavin Harte, SEAI SEC County Mentor for Dunlaoghaire-Rathdown, will provide independent, expert advice to move beyond the jargon. Gavin will focus on

- Practical Tips & Tricks;** We will look at low-cost and no-cost behavioural changes that can help you manage your energy use immediately. These are structured, incremental changes that can make a real difference to your bills without needing major investment.
- Navigating SEAI Grants;** Gavin will provide a comprehensive walkthrough of current Government supports, helping you understand which path fits your needs and budget

**\*\*Members, friends, family and local community all welcome to attend\*\***

This is also an opportunity for you to let us know of your own areas of interest and take part in initiatives helping create a sustainable and better environment within our Club and local Community
